

LOSBERGER DE BOER

Losberger De Boer Garden Cottage For stylish outdoor events

Offer your customers stylish surroundings outdoors: The Losberger De Boer Garden Cottage is an attractive, versatile membrane-roof pagoda used for many applications. Use as a stand-alone unit or group together in a variety of formations. Its robust, professional quality guarantees longevity at highly affordable prices; a truly worthwhile investment. That's not all: We guarantee the availability for future purchases and spare parts even in years to come, Losberger De Boer is internationally renowned for high quality tent systems and halls, we are here for the long haul, you can be sure of it!

Technology

Compact for ease of transportation, quick and simple to install. Perfect for uneven surfaces thanks to the adjustable-height base plates.

Frame

Sturdy, robust framework constructed from aluminium hollow profiles. Edge beam of aluminium square tube. All steel parts hot-dip galvanized. Several pagodas can be connected together with special gutter parts.

Covers

Professional, heavy duty, high quality covers made from translucent, PVC-coated fabric, flame-retardant according to DIN 4102, Fire Class B1. Fabric colour white. 2 side curtains with barred windows and 2 curtains without windows as shown. Strong zip fasteners for opening and closing the curtains. Patented dual keder technology gives a precise fitting roof, tensioning is made easy thanks to the central spindle.

Six types from 9 to 25 m²

Type surface (m)	3 x 3	3 x 3	4 x 4	4 x 4	5 x 5	5 x 5
Side length (m)	3.00	3.00	4.00	4.00	5.00	5.00
